

The Wisdom School

Pacific Coast Church is delighted to announce plans for a Wisdom School, which will meet three weekends over the following year. The Wisdom School is dedicated to deep consideration, inquiry and practice on the leading edge of human evolution and development.

We recognize that we are living lives of rare and extreme privilege. As such we experience as our obligation to explore and chart the next evolutionary steps in human compassion, integrity, love and enlightenment.

In this we seek to reverentially receive the great wisdom passed down through history. Most of this wisdom arrived at our doorstep through the vehicle of the great wisdom traditions of spirit held by the great religions and philosophies of the pre-modern world. At the same time we recognize the modern and postmodern worlds have also gifted us with great insight and wisdom. Reverentially receiving these wondrous bodies of wisdom we at the same time recognize our unique ability and obligation to not only receive but also to evolve wisdom and spirit. It is our joyful obligation to respond to the invitation of spirit and unpack in our bodies, hearts, minds and spirit, new and higher ways of loving each other and living in compassion and integrity.

Teacher in Residence

Our Teacher in Residence at the Wisdom School will be Dr. Marc Gafni, an internationally recognized spiritual artist, teacher scholar and social activist. Marc is the co-founder of iEvolve Global Practice Community, and the Integral Life Spiritual Center, a Kosomo-Centric, movement of teaching, activism and practice.

The topic for these sessions will be steps you need to take to realize your own enlightenment.

Each of the weekend's sessions will hold the holy trinity of Buddha, Sangha and Dharma.

- By Buddha we mean our first person experience of God, holiness, Tao, Atman, Ayin, Spirit or whatever name you want to give it.
- Profound Meditation, Rigorous Inquiry, Heart Exploding Chant, Deep Reality Consideration will all be part of our monthly meetings.
- By Sangha we mean the sacred, pleasurable and gorgeous incarnation of spirit and joy invoked by the gathering of like minded men and women in a community of purpose and joy.
- By Dharma we mean the genuine receiving of an authentic Wisdom -Dharma transmission from all the great traditions of spirit which will point the way towards your own enlightenment.
